A COMPLETE SUCJESS.

The great success of this work is the theme of conversation in all literary circles. Its sale has even surpassed the expectations highly raised as they were, of its publishers. It has achieved the GREATEST TRUMPH of any Novel published during the present year. Its sale during the dull sesson has been so rapid and content that, without having found it necessary to keep it be the public by advertising, the Publishers have experienced difficulty in keeping a sufficient stock on hand. Another large edition is now prepared for the increased demand, and the Publishers will continue every exertion they have hitherto made to sup
